- Applicable for any age
- Simple to use
- Minimises moving and handling risk - protects carers' backs
- Suitable for indoor our outdoor use
- Operated by low air pressure using the Airflo power source

# Course DM3

## Fall Rehabilitation

Course CM3 is designed for the elderly and / or weakened patient.

By offering various modes of ambulation, carried out in a safe controlled setting, Course DM3 stimulates locomotor function, improves balance and preserves self-confidence.

As part of an extended care plan, it is an objective tool for falls prevention, risk evaluation and 'better balance' workshop.

Course DM3 is an ideal investment for aged care facilities and incommunity accomodation for the disabled. It can also be used in the acute hospital rehabilitation setting and occasional day care/respice.

### Specifications

- Stimulating locomotor functionality
- Improving balance
- Preserving self-confidence
- Maintaining independence

### Evaluation tool:

The evaluation grid provided with the DM3 makes it possible to analyse the progress of each user with reference to the level of assistance required and the degree of success with which each exercise is completed. It also facilitates setting up groups with similar skill levels, thereby promoting social interaction and encouraging friendly competition.

### 12 exercise based around:

- Physiological walk
- Static balance
- Dynamic balance

Name	CARPET #1. (180 points)				CARPET #2. (54 points)					CARPET #3. (66 points)					Total	
	Forward Walk	Right Side Walk	Left Side Walk	Backward Walk	Collecting	Climbing	Descending	Balance on Right	Balance on Left	Transition	Right cant	Left cant	Bars	Carpet		Mushroom
	Score /45	Score /45	Score /45	Score /45	Score /18	Score /9	Score /9	Score /9	Score /9	Score /18	Score /6	Score /6	Score /9	Score /9		Score /18

**Memo:** Multiplying coefficient of 3 if achieved without assistance | Multiplying coefficient of 2 if achieved with technical assistance (canes, or walking frame) | Multiplying coefficient of 1 if achieved with manual assistance of accompanying carer.
