# Carina350EM/EE

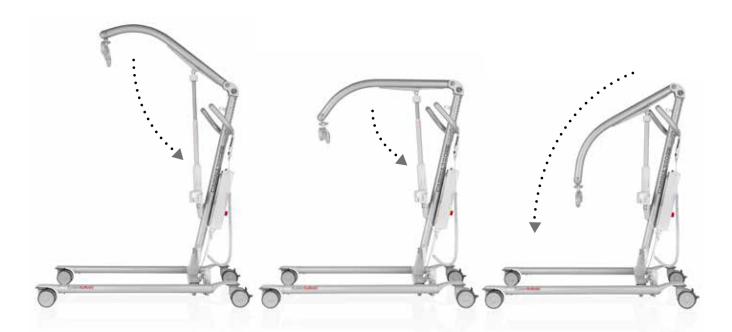

#### A versatile and economical solution for safe and easy lifting

Carina350 is a foldable, mobile patient lift adapted for safe and easy lifting of users weighing up to 165 kg/350 lbs. Carina350 is available in four variants, with manual or electrical base widening and with standard height or low legs. All variants are sturdy and stable and can handle most lifting situations and requirements. Carina350 offers a unique combination of functionality, performance and quality in relation to price.

A more economical solution is hard to find!

## Carina – four foldable variants

#### Flexible and versatile

Carina350 is a foldable, mobile patient lift adapted for safe and easy lifting of users weighing up to 165 kg/350 lbs. The lift is sturdy, stable and safe and, at the same time, light-weight for a steel lift. Carina350 has a relatively narrow and compact design, which means that the lift can fit into and reach practically anywhere, even in tight spaces. In spite of the handy size, Carina350 offers an unusually high lifting height for a foldable lift, 1680 mm/66.1".

The total lifting range is also very large and, therefore, Carina350 can manage most lifting situations and requirements; both low and high lifting, seated or supine, to and from the floor, bed or chair.

#### Easy to set up and fold

Carina350 is foldable and requires very little space during transportation and storing. With just a few, simple operations and without any tools, Carina350 can be folded or set up as required.

The lift can be used in all situations, and, when needed elsewhere, it is easy to move between different users, rooms and homes. The lift is delivered folded.

Using a quick-connecting locking pin, the actuator is released from the lift arm.

The lift arm is folded down and securely fastened to the mast with a tension strap.

Finally, the mast is folded down towards the base.

#### Manual or electrical base widening

Carina350 is available in two models. Carina350EM has manual base widening, which means that the distance between the legs of the lift can be increased or reduced using the pedal at the lower back part of the lift. Carina350EE has electrical base widening and a base widening motor, which is controlled using the hand control.

#### Standard height or low legs

buttons.

Both models are available in two variants with standard height or low legs for use with lower beds.

#### Ergonomic and easy-to-use for the caregiver

Carina350 features free-rolling, maintenance-free castors with locks on the rear castors. The grip-friendly handle bars offer multiple hand placement options and is adjustable in two heights. This allows the caregiver to work in an ergonomically correct manner, thus preventing work-related injuries and minimizing discomfort and pain for those already burdened with a work-related injury.

The hand control has clearly marked, easy-to-push buttons for lifting and lowering and, for Carina350EE, for electric base widening. All motion stops as soon as the buttons are released. The hand control has a hook for easy storage, hanging on the lift. The hand control is always easy to find and the risk of cable tangle is minimized.

#### In case of emergency

Carina350 has an emergency stop button readily available on the control box. The lift also features both manual and electrical emergency lowering.

#### Reliable power supply

The battery has high capacity allowing for performance of many lifts per charge. This means that charging is needed less frequently. A sound signal can be heard when the battery level is low and an indicator on the control box shows when charging is in progress and when the battery is fully charged.

· SwiftHook, accessory for SlingBar

• Encapsulated twin castors, Ø100 mm/3.9", with bumpers

Built-in charging

#### **TECHNICAL INFORMATION**

Safe working load (SWL)	165 kg/350 lbs
Material	Powder-coated steel
Height	.1290-1840 mm (50.8-72.4")
Height, folded	428 mm (16.8")
Base length	1150 mm (45.3")
Length, folded	1216 mm (47.9")
Base width, outer dimensions	_710-1080 mm (28.0-42.5")
Base width, inner dimensions	560-940 mm (22.0-37.0")
Base width, outer dimensions, folded	683 mm (25.3")
Weight, Carina350EM	34.5 kg/76.1 lbs
Weight, Carina350EE	36 kg/79.4 lbs
Base widening, Carina350EM	Manual
Base widening, Carina350EE	Electrical
Castors, diameter, 60600011 and 60600009	100 mm (3.9")
Rear castors, diameter, 60600012 and 60600014	100 mm (3.9")
Front castors, diameter, 60600012 and 60600014	2 x 35 mm (1.4")
Lifting range	_ 580-1680 mm (22.8-66.1")
Lifting speed, without load	23 mm/s (0.9"/s)
Emergency lowering	Manual and electrical
Battery capacity	2.9 Ah
Material, sling bar	Aluminium
Sling bar, width	450 mm (17.7")
Protection class	IPX4

### **ACCESSORIES**

To create optimal solutions for users with different needs, Carina350 can be used in combination with lifting slings and many other clever and functional lifting accessories in Handicare's SystemRoMedic™ lifting range.

Item no.	Product name	Description
70200030	Endcover Carina	_Covers the end of the mast when collapsed
16010	ReadyStrap	_Locking strap
70200071	SlingBar XS	_Two-point aluminium sling bar, 25 cm/9.8" 🥂
70200001	SlingBar S	_Two-point aluminium sling bar, 35 cm/13.8"
70200003	SlingBar L	Two-point aluminium sling bar, 60 cm/23.6"
70200042	SlingBarSpreader M	Side bars for SlingBar
70200006	StretcherBar	For horizontal lifting
70200017	Sling bar RFL X4	Four-point steel sling crossbar
70100002	Charder MHS2500	Scale, SWL 300 kg/660 lbs
70100003	Charder MHS2500	Scale, SWL 400 kg/880 lbs
70200089	Hand control HB33-6_	6 buttons, with service, battery status and overload indicators, for 60600009 and 60600014
70200029	External charger Linak _	For Carina350
